

STERLING DROP

A Molten Drop of Glass and Warmth

STERLING DROP feels like a warm drop of glass held in time. Its long shape falls softly downward, giving the piece a calm and natural feeling.

The amber color rests inside the glass with gentle depth and warmth. Suspended in space, STERLING DROP feels simple, refined, and quiet — a glass form shaped by heat, movement, and craftsmanship.

Color Harmony

GLASS COLOR

- Black to Amber Gradient Color

METAL COLOR

- Brush Gold Color

Model Details

TECHNICAL SPECIFICATIONS

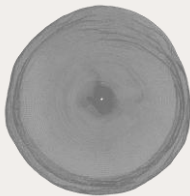

- Model: ARTX0116
- Dimension: D120 × H280mm
- Glass Thickness: 4mm
- Net Weight: 500±10%
- Working System: ON/OFF
- Input Voltage: 220V AC
- Packaging size: 600 x 400 x 300mm
- Material: hand-formed glass + meta
- Suspension: Adjustable hanging wire system
- Light Source: LED G4
- LED Power: 1.5W
