

DOVER WAVE

The Energy of a Wave Becomes a Balanced Curve

DOVER WAVE feels like a soft wave held gently in the air. Its glass body rises and falls in one smooth motion, giving the piece a calm and natural sense of movement.

The curved glass catches surrounding light with soft reflections, showing gentle depth and clarity. Suspended in space, DOVER WAVE feels simple, elegant, and peaceful — a glass form shaped by rhythm, flow, and quiet beauty.

Color Harmony
