

Windsor Flame

A Vertical Form Reimagined in Twist

WINDSOR FLAME is a tall glass form with a soft royal twist. The body rises smoothly, then turns gently along its axis, creating a calm sense of movement.

Soft curves shape the glass into a balanced, flowing silhouette. As light passes through, it reveals depth, clarity, and quiet reflections. Suspended in space, **WINDSOR FLAME** feels elegant and timeless — a British-inspired form shaped by glass, light, and heritage.
