

ETON AXIS

The Intersection of Axis and Organic Form

ETON AXIS feels like a soft glass form held by one clean vertical line. The metal axis gives the piece balance and strength, while the glass moves around it in a natural, organic way.

At the center, the light glows gently through the glass, showing depth, reflection, and softness. Suspended in space, ETON AXIS feels clear, modern, and refined — a simple meeting of structure, light, and organic form.

- Brush Gold Color
- Chrome Color
- Black Color

Model Details

TECHNICAL SPECIFICATIONS

- Model: ARTX0130
- Dimension: L80 x W40 x H300mm
- Glass Thickness: 4mm
- Net Weight: 350±10%
- Working System: ON/OFF
- Driver: Constant Current 150mA
- Packaging size: 600 x 400 x 300mm
- Material: hand-formed glass + meta
- Suspension: Adjustable hanging wire system
- Light Source: Integrated LED
- LED Power: 3W
